Criteria for Judging Posters

Content (40 points)

The purpose of an exhibit is to convey to a wide audience a research project's significance to scholars in the field and its potential significance to the general public. The exhibit should testify to the careful design and execution of the research and present clear findings that are well interpreted. It must include:

- Title,
- Author/s,
- Author's Affiliation,
- Abstract,
- Introduction,
- Materials and Methods,
- Results and Discussion,
- Conclusions, Literature Cited
- Acknowledgement (if any)

Data Visualization (40 points)

Effective communication (20 points): Clear presentation of results through visualization

- Results: Intended message is communicated clearly to a wide audience
- Independent message: Visualization tells a story with limited (or no) support from other poster elements
- Fair representation: Data are accurately represented without distortion and message is consistent with other poster content

Creativity and innovation (10 points): New direction in field/approach to visualizing the data

- Significance of graphic to research: Clearly conveyed by the visualization
- Innovation: Visualization itself is innovative and creative
- Inspiration: Provocative, compelling, and memorable content, message, or design
- Unique approach: Representation of data is bold and original

Design and aesthetics (10 points): Appropriate use of color and design

- Title, headings, labels: Appropriate size, location, spelling, and content
- Choice of visual: Appropriate for the audience and the message being conveyed
- Design: Aesthetically pleasing, limited clutter, good use of color contrast
- Clarity: Appropriate balance of function and design

Oral (20 points)

Each student should have prepared an oral discussion of his or her exhibit. This discussion must not exceed 5 minutes. The oral presentation should be clear and concise, and should include the major points presented on the poster. If the student worked with collaborators on the project, including his or her adviser, this presentation should clearly describe the student's role in the overall project. Students should be ready to answer questions from judges and other viewers.
