

CLSU SEX-DISAGGREGATED DATA FOR 2022

ABOUT

Sex-Disaggregated Data (SDD) is the statistical information that differentiates women and men and allows one to see where the gaps and disparity are in their position. This statistical information differentiates between women and men in order to allow differential impacts on men and women to be measured (PCW, 2017).

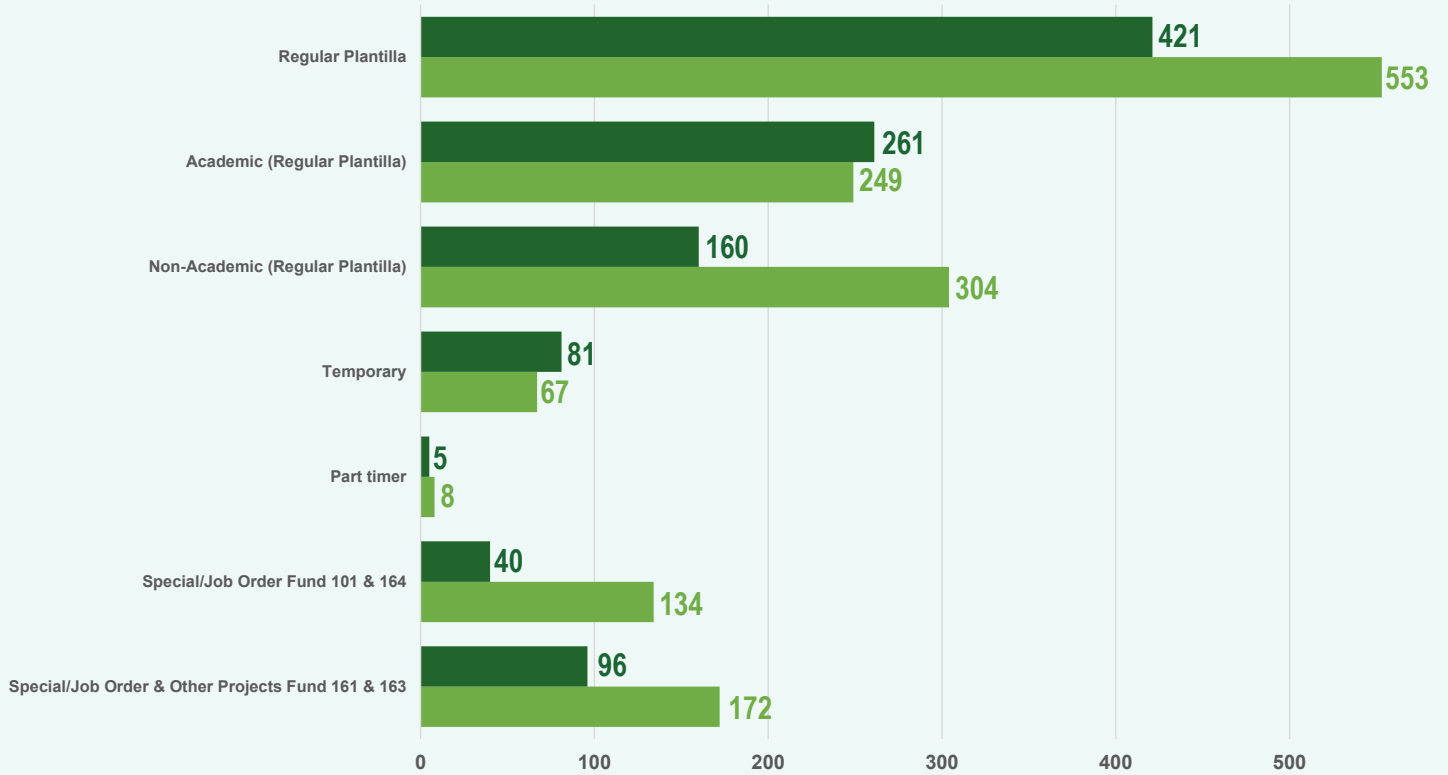

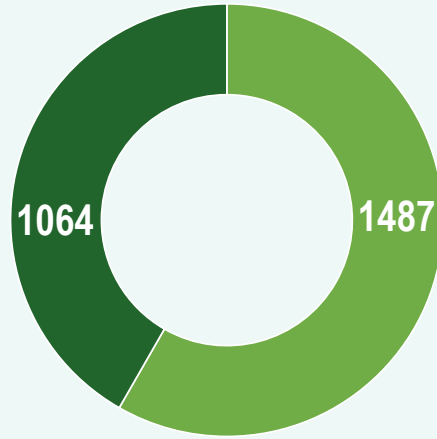

This CLSU Sex-Disaggregated Data were collected to serve as basis of the ExeCom for the 2023 formulation of gender-responsive projects, programs, and activities (PPAs) for extensive mainstreaming. The data will aid the identification of gender issues and concerns that need to be addressed to pave way for a gender-equal university and thereby extend to all the people it serves.

Included in this SDD are the number of employees based on employment status, number of enrolled students in the 2nd semester, A.Y. 2021-2022 and 1st semester, A.Y. 2022-2023, the beneficiaries of GAD Financial Assistance for Students for 1st semester, A.Y. 2022-2023 and Graduation Report for A.Y. 2021-2022, also the Gender-Disaggregated Data (GDD) of the members of the LGBTQIA+ community student organization.

Through the SDD/GDD, it is hoped that all genders will enjoy equal rights and opportunities in all spheres of life to harness their human potentials towards growth and development.

SEX-DISAGGREGATED DATA OF CLSU EMPLOYEES IN TERMS OF EMPLOYMENT STATUS
